**FIG. 1**

A perspective view of a cylindrical device 1, showing its internal components and external features. The device has a main body 2 with a top flange 2a and a bottom flange 2d. It includes a central shaft 3 with various rings and seals (3a, 3b, 3c, 3d, 3e). A motor assembly 4 is mounted at one end, featuring a stator 4a, rotor 4b, and shaft 4c. A gear train 5 is shown, including gears 6 and 7. A control unit 8 is connected to the device via wires 9. A label "IMAGE FORMATION SIDE" points to a specific area on the top flange.
